RETRIBUTION—CAUSES AND MEANS

[illegible] Mr Lawrence My Dana Dixon in a very caustic humor If on the plea of plagiarism, stated that he undertook the work from patriotic and not personal motives in order to explode the disloyal production of Mr Lawrence now the work in accordance with the views of America and Europe [illegible] cordially in conformity with Mr Ward's ideas and plan Mr Lawrence accused of the worst stuff which [illegible] very valuable and beautiful [illegible] Lawrence knows that to Mr Ward is due the credit under which [illegible] Lawrence took his book and [illegible] Mr Lawrence Lawrence did not steal [illegible] Lawrence's work but in taking the Seminole His figures would compare favorably with those of which many of the sculptors throughout the world [illegible] Lawrence enough [illegible] in [illegible] good fortune to have the [illegible] whose work without sin to cast stones at [illegible] and he [illegible] more injured in reputation by the general publicity which [illegible] circumstances of the case have given [illegible] than the mere fact of being rejected

The Land in Zones circular in the case of Wm Sharon the Boston forgery points out the possibility of Winslow's escaping extradition or punishment altogether Under the provisions of the existing extradition treaty which recovery imprisonment Winslow can only be tried for forgery and unless the United States shall hereafter by the French government that he will not be tried for any other crime he will not be delivered up It may be remembered that Lawrence who was recently arrested on a different charge than that stated in the demand for extradition escaped prosecution on the grounds stated in the Zones article It is to be hoped that steps will be taken immediately to remedy this defect in the extradition treaty so that no such complication can again arise

The testimony heretofore given by Bell the detective who stated that he had been employed by Babcock and Farley to steal evidence from the District Attorney's office in Sharon's and Fair's other suits of like disgraceful nature has been rudely shaken by Secretary Chandler who in his testimony before Cyrus's committee yesterday stated that each of Bell's statements as to what was said and done by himself Chandler and Bell when they were together in Chandler's office was false and that he had discharged Bell from his situation because he had discovered him to be a scoundrel

It is intended that Gen Custer by his testimony with reference to Gen Merrill whom he charged with having taken a bribe has accomplished that object which is so dear to the unregenerate mind's getting even with a man who has previously injured him Gen Merrill commenced the strife by censuring Gen Custer for not maintaining proper discipline in the regiment and now Gen Custer strikes back with a far more serious charge The mills of the gods etc

In consequence of the inflammatory addresses recently made in San Francisco by various street orators and of the bad state of feeling evinced by the unruly portion of the population the Chinese have become justly alarmed and have appealed to the mayor for protection The mayor has caused due precautions to be taken to preserve order and tranquility

LETTER FROM BENTON COUNTY

CORVALLIS April 2, 1876

TO THE EDITOR OF THE OREGONIAN

In my travels through the Willamette valley and Southern Oregon I find the farmers much further advanced with their spring work, in Jackson, Curry and adjoining counties than they are throughout the Willamette valley Should the rains cease soon this valley will get sown a greater acreage of wheat than was sown last year There has been a great many grubs taken out in this valley this winter with the intention of sowing the new land to wheat You may look for some big reports from the new lands next fall Farmers are anxiously waiting for Old Sol to come forth and proclaim himself monarch

Farmers through out the Willamette valley Josephine Curry Coos and Jackson counties are going wild about potatoes They are planting co wish potatoes to supply the Puget Sound and still have hundreds of bushels left for sale Potatoes may be worth a dollar a bushel next fall but I doubt it

It would be much better if instead of planting such many potatoes some would turn their attention to corn I find but few engaged in the culture of onions The farmers are sowing more oats than was sown last spring I think that a wise plan Raise more oats and keep them what that is usually fed to stock or ship to Europe We should all make it an object to attract every dollar to our state possible by raising whatever can be best shipped and sold as the case

TRAVELLER

These seamen had on previous occasions deserted the vessel while in Humboldt, and were arrested at the instance of the captain of the vessel. While the vessel was lying at Astoria—so it appears from the evidence—the "grog at Gaston"—so it appears from the evidence—the "grog at Gaston" did a thriving business during the evening, and many of the crew of the Corwin were missing at reveille next morning. They were taken before Commissioner McCarver, and in default of bail were committed to the County Jail to await the action of the Grand Jury.

BRIEF NOTES

STEAMER Lurline arrived at 9 last evening. Buildings going up lively in the south end. The canal was unusually interesting last evening.

Perfectly lovely was the way the ladies expressed it regarding the weather yesterday.

The last few days of fine bright sunshine have lent additional impetus to the swelling buds.

Mr H C Morris after a protracted and painful illness is able to appear again on the streets.

The *Lizzie Patton* and *Alice* are the only boats running on the upper Willamette river now owned by the O S N Co.

Excavation for the foundation of Strowbridge's new brick building at the corner of First and Alder streets has commenced.

The meeting of the Young Pacific B B C will be called to order at 9 A M next Saturday on the corner of College and Lighth streets.

A pleasant party was given last evening at the residence of J F O Lownsdale Esq, at which the young folks lent their presence in numbers.

A new flag staff now surmounts the court house cupola. It is quite a neat staff and from its head proudly floated the stars and stripes yesterday.

The *E N Cooke* brought down yesterday a full cargo—about 150 tons. Forty tons of pig iron from Oswego came down, which will be shipped to San Francisco on the *Portland*.

After a very long and painful illness Mr Hamilton consort of Mr Alex Hamilton of this city died yesterday morning. About four years ago deceased met with a severe fall that resulted in an abcess which caused her death after untold sufferings.

The Wheat Market

The last advices from Europe give no basis of which [illegible] anything like certainty as to the future of the wheat trade, but it is generally believed by leaders and exporters in the business that the business at present and when the new crop is ready to get off there will probably be a very quiet state of affairs in this department of trade until harvest. Those vessels now [illegible] Lizzie Mallicott, Mary Jones and Ann Mallicott, mostly loaded, and the W H Talbot, Ida Chloe and others, are mentioned cargoes which are reported at 38s.
